Roosevelt School

Roosevelt School is a well-established Project Based Learning school rooted in a tradition of excellence and delivering a 21st century education based on critical thinking, problem-solving, using technology and working together.

Meet Roosevelt School

Grades: TK-8

Imagine your child, 15-20 years from now, working side by side with fellow employees on a project that will change the world...perhaps it's the cure for cancer, the next big technological invention, or developing solutions for world peace. What if, starting now, your child could learn and experience the critical skills necessary to be a successful leader, innovator and creative problem solver in our ever-changing world? Since 2008, Roosevelt students have been challenged and engaged in an award-winning Project Based Learning curriculum that helps them develop skills for living in a knowledge-based, highly technological society.

Our supportive community of teachers, staff, and parents ensure that students are successful in all aspects of their learning. Roosevelt School's growing accomplishments are evident in its student academic gains, the innovative projects that students lead and produce each year, and its award-winning reading program and curriculum.

For these reasons and more, we invite you to **meet, choose and love Roosevelt School.**

Programmatic Focus:

Project Based Learning

In a Project Based Learning classroom, students are challenged to work cooperatively, think critically and present their work in front of an audience. A variety of engagement strategies are used to engage students and encourage their participation in a rigorous curriculum. Roosevelt School is the only school in the RCSD that utilizes the Project Based Learning curriculum in all grade levels.

"I love Project Based Learning because we get to build things and have experiences in school that make me excited to learn. It brings whatever we're learning to life instead of just reading about it in a book."

Thomas Taylor, 5th grader at Roosevelt School
